The third principle that underlies the Economics of individual choice - "How much?" is a decision at the margin - determines the situation. A person has to compare the cost and benefit of having a cup of coffee and then had to decide how many cups of coffee one should consume to study in the night.

Exploring Economics - history.notgrass.com

Still others think that economics involves forecasting or predicting what business conditions will be in the future, and again, it does—in part. The word economics is, after all, derived from the Greek Oeconomicus, which referred to the management of household affairs. Precisely defined, economics is the study of the choices we make among our ...
