The National Countdown Round was shown on ESPN from 2003 to 2005, and now it is presented in a webcast every year. The Countdown Round consists of several matches in which two students are pitted head to head. A problem is displayed by a projector, and the two contestants race to finish the problem (with pencil and paper).

Mathcounts - Wikipedia

MathCounts is a national non-profit organization that promotes the importance of math at the pivotal middle school age. At WAAS, we have an after school club open to all middle schoolers from the first of October through mid-November from 2:30-3:30. A team of ten from that group will compete in a practice county round held on January 24th and a regional competition held on February 22nd.

MathCounts - Mr. Simon

Edward is one of six people who each are writing 180 math problems. When he solves every problem, he gets an incorrect answer for 10% of the problems that he wrote and for 5% of the problems written by the others. For what fraction of the problems does Edward get the wrong answer? Express your answer as a common fraction. What is the value of 2
